DONATE BLOOD AND SAVE LIFE

On March 28, 2023, Tarlac Agricultural University (TAU) hosted a bloodletting activity at the Farmers Training Center in collaboration with the Philippine Red Cross Tarlac, LGU Camiling, and the TAU Multipurpose Cooperative. Led by the TAU Gender and Development Office, the event saw 232 participants donate blood to support critical medical needs.

Bloodletting initiatives are vital, especially as the Philippines faces medical crises like the dengue epidemic. These donations provide life-saving blood supplies for hospitals, ensuring that patients in urgent need receive timely care. Together, we contribute to a healthier, stronger community.
