

TAU-College of Education Program Offerings includes BTLEd major in Agri-Fishery Arts

The Tarlac Agricultural University – College of Education, through its BTLEd major in Agri-Fishery Arts, supports SDG 14: Life Below Water by offering community outreach programs focused on fresh-water ecosystem education. The program includes seminars and learning activities on water irrigation practices, water management, and conservation. These activities aim to help students and local communities understand the importance of protecting and managing freshwater resources responsibly. Through these initiatives, the College promotes environmental awareness and encourages sustainable practices that support both agriculture and aquatic life.

The graphic features a blue background with a faint image of a university building. In the top left, there is a logo for the Republic of the Philippines Tarlac Agricultural University College of Education. To its right, a white box contains the text 'See Yourself in the Classroom' in a blue script font. Below this, a large white box with a yellow border lists 'Curricular Offerings'. The list includes several bachelor's programs, some with sub-majors, all marked with a blue checkmark icon. At the bottom left of the white box, it says '*CHED Priority Courses'. At the bottom right, there is a circular gold seal with the college's name and a torch emblem. The entire graphic is overlaid on a large white envelope graphic at the bottom.
