TARLAC AGRICULTURAL UNIVERSITY

Camiling, Tarlac

	
Events like the SDG Congress 2024 demonstrate Tarlac Agricultural University's (TAU) active engagement in developing cross-sectoral debate on the Sustainable Development Goals (SDGs). The College of Arts and Sciences (CAS) sponsored the conference, which brought together members from other TAU colleges, including the College of Agriculture and Forestry (CAF), the College of Business and Management (CBM), the College of Engineering and Technology (CET), and the College of Veterinary Medicine. TAU underlined its strong commitment to sustainability by participating in the Sustainable Development Goals (SDG) Congress, which was held under the topic "Climate Action and the SDGs: Interconnected for Sustainability" this year. The event brought together students, academics, and industry leaders to debate key environmental issues. The TAU SDG Congress 2024 focused on Climate-Smart Agriculture, which increases resilience to climate change while maintaining food security, and Climate Justice, which addresses disparities in climate policies and their disparate effects on disadvantaged people.
